

# Cookie Law

## What does Cookie Law do?

The Cookie Law module creates a lightbox in your shop, which informs visitors about the use of cookies. This complies with the requirements of the EU directive.

The module configuration allows you to easily drag and drop any module from your module list into the categories Statistics & Partnerships, Promotion and Comfort. You can rename the module names. In the advanced settings you can also customize the info text, banner alignment, colors and the linked privacy CMS page.

## To install the module

To install the module go to Modules > Modules. Click on the button "Add new module" (PrestaShop version 1.6.x) or "Upload module" (PrestaShop version 1.7.x)

Select the zip. file of the module and click on "Load module".

After the module is uploaded and installed, it will appear in your module list.

# Customize the module according to your needs

In the first step you can select the CMS page that contains the data protection conditions. In the advanced settings, you can, for example, specify the text and background color that fits better into your design. You can also write your own text in the multilingual text window if you want to make it easier and more user-friendly.

You are in a demoshop of silbersaiten, the Prestashop agency. In this demoshop we present you the possibilities of our modules. For this purpose we have included a lot of demo articles. This shop serves exclusively test and demonstration purposes. The articles are fictitious. Orders are not considered. When testing, do not use any foreign images without the express consent of the copyright holder. Please note that we reset the demo data at regular intervals so that your test data will be deleted. In the advanced settings you now have the possibility to drag and drop the desired modules into the corresponding categories. This is useful for modules that collect a lot of data like Google Analytics and Facebook. This step is optional.

You can also rename the modules and the short descriptions. The change will also be visible to the shop visitor.

The shop visitor can now either allow all cookies or select and deselect individual modules by clicking on "Details". All modules in the category "Technically essential" cannot be deselected.

## Cookie settings

We use cookies to make it easier for you to use the website, to make our products available to you as well as personalized offers other companies. You decide, which cookies you allow or reject. You can change your decision at any time. Further information also in our [Privacy policy](#).
