# Installation

To install the module, go to Modules and Services> Modules and Services. Click on the button "Add new module".

Add a new module

Select the zip.-file of the module and click on "Upload this module".

After the module is uploaded and installed, it appears in your modules list.

	<b>Darique</b> v2.4.31 - by Silbersaiten	Allows you to set price ranges and offer some free products to your customers whose order exceed those ranges	<a href="#">Configure</a>	<input type="checkbox"/>
---	---	---	---------------------------	--------------------------

# Functions

To access the functions of the module, click Price More > Darique or click on the "Configure" button in your module list.

## Base configuration

The base configuration consists of two settings, the presents category choice and the option to enable multiple gifts. You will find the basic configurations under Price Rules> Darique at the bottom.

Present category

Select category that you want to make your "presents category". Note that it should be inactive at all times, and customers will not have access to products in some other category as well. Notice: you will lose present settings if you change presents category.

Multiple presents ☒ YES ☐ NO

If set to off, more expensive present will overwrite the cheaper one, so the customer will only be able to get one present per order.

With or without tax ☒ YES ☐ NO

If set to on, the rules will take into account the amount of the cart with taxes. If set to off, then without taxes.

Alert to the administrator ☐ YES ☒ NO

Send an alert to the administrator that there is a gift in the order?

The number of gifts to display in row

How many gifts should be displayed in the carousel

The number of gifts to display in row in mobile

How many gifts should be displayed in the carousel (in mobile version)

Excluded URLs

In this field, URLs are added to which the ajax requests in the trash occur. Since updating the list of available gifts occurs with each ajax-request, sometimes happening, URLs should be added to this field, in which there is no need to update the gift block. The delimiter is a comma.

## Gift category

The module creates a deactivated category named presents, where all the gift products should be stored in. This category should always remain disabled, unless you want to use the gift products also as buyable products, too. Now select the category your gifts are in.

Present category

*Select category that you want to make your "presents category". Note that it should be inactive at all times, and not to some other category as well. Notice: you will lose present settings if you change presents category.*

## Multiple presents

If disabled, the more expensive present will replace the cheaper one. The customer will only see a gift. When activated, the customer is able to choose between several gifts.

Multiple presents ☒ YES ☐ NO

*If set to off, more expensive present will overwrite*

## With or without tax

Indicate whether the amount in the shopping cart should be displayed incl. Or excl. tax.

With or without tax ☒ YES ☐ NO

*If set to on, the rules will take into account the amount of:*

## Alert to administrator

Enable this option to notify the administrator of orders with gifts.

Alert to the administrator ☐ YES ☒ NO

*Send an alert to the administrator that there is a gift in the order?*

## Number of gifts in row

This feature allows you to set how many gifts can be displayed in a row, both in the browser and in the mobile version. This allows you to customize the appearance.

The number of gifts to display in row

*How many gifts should be displayed in the carousel*

The number of gifts to display in row in mobile

*How many gifts should be displayed in the carousel (in mobile version)*

## Excluded URLs

The module constantly updates the gifts. The updates are made with each AJAX request, which may cause the gifts to "flash" as they are constantly updated. To prevent this, enter the URLs here that do not require constant updating. Separate the URLs with commas. Alternatively, you can also enter "modules/paypal/integral\_evolution/confirm.php?id\_cart" (without quotation marks). This disables constant updating throughout your store and prevents flashing.

Excluded URLs

*In this field, URLs are added to which the ajax requests in the trash occur. Since "flash". To prevent this from happening, URLs should be added to this field, in*

## Gift rules

Click on "add new" to define a new gift rule

Rules								
DARIQUE 2								
ID	Price from	Price to	Product	Category	Manufacturer	Limit	Enabled	
1	40.00	100.00	--	--	--	0	✓	Edit
2	0.00	100.00	--	--	--	0	✓	Edit

- Status: Enable or disable this gift.

Status:

YES

NO

*You can limit the range to only one category*

- **Price from / Price to:** Determine in which price range this gift should be available. The gift can only be selected by customers whose shopping basket value is in the corresponding price range.

Price from: € 50

Price to: € 100

- **Product:** You can assign gifts to a special product. Enter the corresponding product name here. As you type, suggestions for matching products will be made. Select the product. This gift will then only be shown to customers who have the corresponding product in their shopping cart.

Product	Dre Printed Chiffon Dress
quantity:	7 - Printed Chiffon Dress 3 - Printed Dress 4 - Printed Dress 5 - Printed Summer Dress 6 - Printed Summer Dress

- **Max Quantity:** If you have more than one gift in this Gift Rule, you can choose how many gifts your customers are allowed to choose. Enter a 0 so that your customers can choose any gifts. Enter a 1 so your customers can only choose one gift.

Max quantity:

*Set the number of presents the customer is allowed to choose. Enter 0 to allow choosing all optional presents.*

- **Category:** You can unlock this gift rule for a specific category. Regardless of the selected price range, this gift will be shown to customers as soon as they have at least one product in the selected category in their shopping cart.  
You can also specify whether the product must match the specified price range. If you activate this option, the gift will only be displayed to customers if the product of the category (T-shirts) has a value that corresponds to the price range. This will prevent gifts that are actually assigned a very high price range from being displayed on a very cheap product.  
If the category feature is used, your customers will only be shown the gifts under the chosen conditions. Make sure that the chosen conditions are achievable (Category Function AND Manufacturer Function AND only a certain price range can cause these conditions never apply to your customers.)

Category: 5 - T-shirts ▼ YES NO

*Optionally you can show gifts, if there is AT least one product in a cart applied to the selected category* *Set to yes, if the limited product(s)*

- Manufacturer:** You can unlock this gift rule for a specific manufacturer. Regardless of the selected price range, this gift will be shown to customers as soon as they have at least one product in the selected manufacturer in their shopping cart.  
 You can also specify whether the product must match the specified price range. If you activate this option, the gift will only be displayed to customers if the product of the manufacturer (Fashion manufacturer) has a value that corresponds to the price range. This will prevent gifts that are actually assigned a very high price range from being displayed on a very cheap product.  
 If the manufacturer feature is used, your customers will only be shown the gifts under the chosen conditions. Make sure that the chosen conditions are achievable (Category Function AND Manufacturer Function AND only a certain price range can cause these conditions never apply to your customers.)

Manufacturer: Fashion Manufacturer ▼ YES NO

*Optionally you can show gifts, if there is AT least one product in a cart by the selected manufacturer* *Set to yes, if the limited product(s)*

- Presents:** Determine which gifts belong to this gift rule. You can add multiple gifts or just one gift. You also have the option of specifying the gift amount. For example, you can give away 4 units of a gift, while giving away just one unit from another. Also, set whether the gift is "optional" or "obligatory". Gifts that are optional can be selected by your customer. Gifts that are obligatory must be selected by your customer.

Presents:

<span>▼</span>	Optional ▼	1	Delete
Gift 2 ▼	Optional ▼	2	Delete
Gift ▼	Optional ▼	4	Delete

Add present

- Group access:** Select which customer groups this gift rule should be available for. So you can unlock some gifts only for customers, while other gifts can also be achieved by guests.

\* **Group access**

<input type="checkbox"/>	ID	Group name
<input checked="" type="checkbox"/>	1	Besucher
<input checked="" type="checkbox"/>	2	Gast
<input checked="" type="checkbox"/>	3	Kunde

## Orders including gifts

Gifts in the orders are indicated by the word "Gift" in front of the actual product name. As a result, you know, even if the gift products are additionally purchasable, whether it is a gift or a purchased product.

PRODUCTS 4						
	Product	Unit Price tax excluded	Unit Price tax included	Qty	Available quantity	Total tax included
	Printed Dress - Size : S, Color : Beige Reference number demo_4	50,99 €	60,68 €	1	267	60,68 €
	Geschenk: Gift 3 - L, Grey, 36	0,00 €	0,00 €	2	848	0,00 €
	Geschenk: Gift - M, 36	0,00 €	0,00 €	1	99944	0,00 €
	Geschenk: Gift 2	0,00 €	0,00 €	1	99995	0,00 €

## Frontend

Under the shopping cart overview the presents are displayed. There, the customer can click on gifts he has already unlocked. Below, the customer is encouraged to increase the shopping cart value to receive more gifts.

<div></div>	<div>Faded Short Sleeve T-shirts</div> <div>SKU : demo_1</div> <div>Size : S, Color : Orange</div>	<div>In stock</div>	<div>19,65 €</div>	<div><div>2</div><div><div>-</div><div>+</div></div></div>	<div></div>	<div>39,29 €</div>
