Description

The module Pickup Payment let customers collect and pay their purchase in store.

Installation

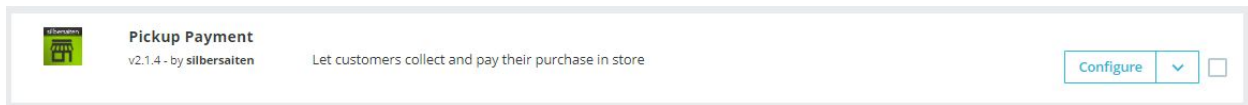

To install the module, go to Modules and Services> Modules and Services. Click on the button "Add new module".

Add a new module

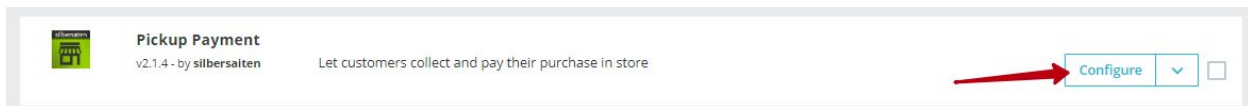

Select the zip.-file of the module and click on "Upload this module".

After the module is uploaded and installed, it appears in your modules list.

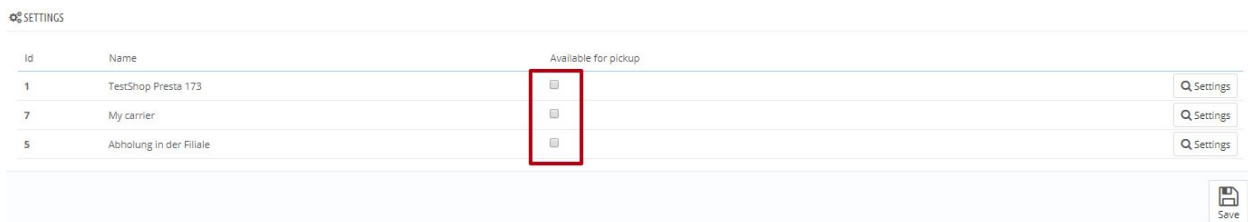

Functions

To configure the module, click on **Configure**. You find the button at the Pickup Payment module in your module list.

First you need to choose the "carrier", who offers the pickup payment.

Id	Name	Available for pickup	Settings
1	TestShop Presta 173	<input type="checkbox"/>	Settings
7	My carrier	<input type="checkbox"/>	Settings
5	Abholung in der Filiale	<input type="checkbox"/>	Settings

Another solution is to create a new carrier with a clear name like "picking up in store".

Carrier

Select the appropriate carrier for the pickup option. By default, its the standard shop name

Select the status of a new pickup payment order. The status appear if the purchase succeeds.

Status of "new" order Warten auf Abholung ▼

The status to be assigned when the purchase succeeds

Select the status of a "ready to pickup" order. The customer will be notified by mail to come and collect the order.

Status of "Ready for pickup" order Bereit zur Abholung und Zah ▼

The status to notify the customer to come and collect the order. Customer will be notified by mail.

Finally add an address where your customer can collect and pay his purchase and the store's opening hours within the customer can collect his purchase.
