

Qticker - Quantity Selector in the Product List

Copyright 2015 silbersaiten.de

Service&Support: https://addons.prestashop.com/en/write-to-developper?id_product=19552

Description

The module creates a simple quantity selector in the Product List view. Users can select a product quantity in the product list to drop into the shopping cart more than one product item.

The quantity selection appears in the product list: featured products, category listings, new products, bestsellers, products by manufacturer, discounts and search results.

Very useful for returning customers who always order several items of known products

Installation

after the installation the module appears in the modules list.
